

LOCKSTITCH STYLE

WARDROBE EDIT

A wardrobe edit is a vital part of maintaining a functional yet fashionable closet. It's a multi-tiered process that helps you break your closet into 3 categories.

Category 1: "The Clinger"- These are items in your wardrobe that should have been donated long ago. They are out of style, falling apart, haven't been worn in years or the thing that makes you feel the worst...have never been worn.

Category 2: "The Fixable"- These are items in your wardrobe that you dearly love but that have never quite fit you correctly. Alterations to the rescue! If you love an item that does not have any attributes of being a "Clinger" then let's tweak it, fix it and wear it!

Category 3: "The Wearable"- These are items in your wardrobe that fit correctly, are fashion appropriate and practical for your lifestyle. We give your "Wearable" items a sprucing by doing a little mixing and matching, to leave you with new outfit options, without having to buy a thing!

Our goal is to create a wardrobe that allows you, to know what you have, what you might need and how to wear it.
